Se poate configura orice email pe aplicatia Android Gmail?

Avantajul major este ca poti adauga multiple conturi de email, nu doar de la Gmail (Outlook, Yahoo, sau orice alt cont de email IMAP sau POP3) chiar si conturile de email gazduite la Zooku.

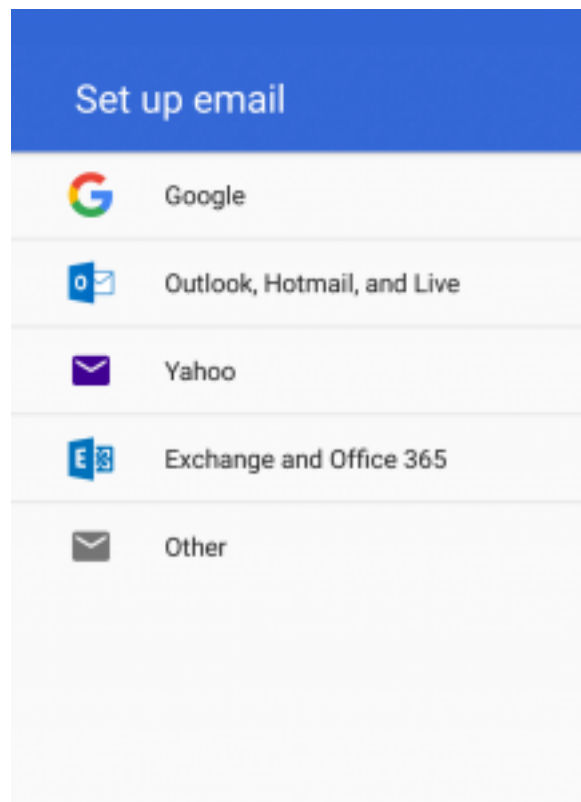

Deschide aplicatia Gmail de pe telefon 

Din partea stanga-sus a ecranului, deschide meniul 

Apasa pe sageata din dreapta ecranului 

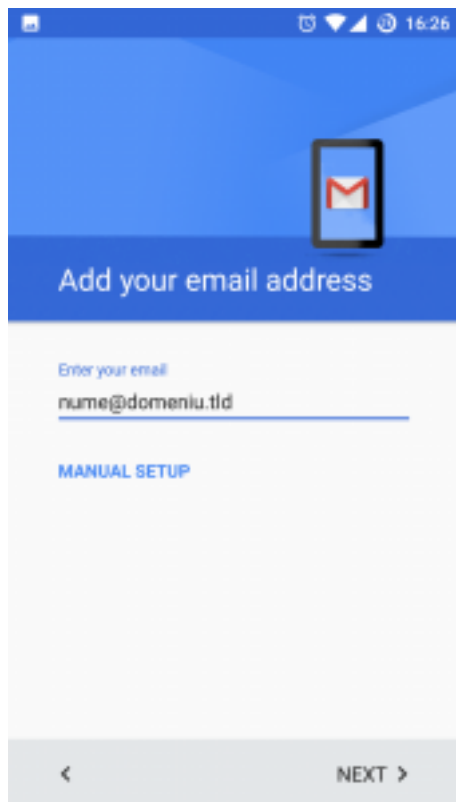

Apasa **Add account** +

Mergi la optiunea **Other** pentru a adauga adresa ta de email gazduita la Zooku:

This screenshot shows the Gmail app's setup screen. At the top, there's a blue header with a white envelope icon on the left and status icons (signal, Wi-Fi, battery) and the time '16:28' on the right. Below the header is a large blue area with a white Gmail 'M' logo in the center. Underneath is a white section with a 'Password' label and a text input field containing masked characters. To the right of the field is a small eye icon. At the bottom, there's a grey bar with a left arrow and the text 'NEXT >'.

Completeaza setarile pentru server:

This screenshot shows the 'Incoming server settings' screen in the Gmail app. It has a blue header with the title 'Incoming server settings'. Below the header are three white input fields: 'Username' with the text 'nume@domeniu.tld', 'Password' with masked characters and an eye icon, and 'Server' with the text 'mp-gts.zooku.ro'. At the bottom, there's a grey bar with a left arrow and the text 'NEXT >'.
