## Mesajele unui partener intra in Spam cum le pot muta automat in Inbox pe aplicatia Roundcube?

Dupa logare pe webmail in aplicatia **Roundcube** accesati in partea dreapta **Settings**

Apoi in stanga jos apasati pe **Filters**

apasati semnul plus + din partea de jos a paginii

- adaugati o regula d egenul celei din imaginea de mai jos:

A 'New filter' form. It has a 'Filter name' field with 'Mutare mail' and a 'Disable rule' checkbox. Under 'Filter Rules', it says 'Please define one or more rules against which each message will be tested. Filters are run in the order in which they appear on the left of this screen, if a match is found no further filters will be tested.' There are three radio buttons: 'matching all of the following rules' (unselected), 'matching any of the following rules' (selected), and 'all messages' (unselected). Below is a rule entry: 'From' dropdown, 'contains' dropdown, and '@domenulpartener.tld' text field, with a plus icon on the right. Under 'Filter Actions', it says 'Please select from the options below. These actions will be performed for any message matching the above rule(s)'. There are two rows of actions: 'Move message to' dropdown with 'Inbox' selected, and 'Stop processing filters' dropdown. Each row has a plus icon on the right. At the bottom is a 'Save' button.

- apasati **Save**
